PROFILE

Third-year UBC student pursuing a **Combined Major in Business and Computer Science**, with a strong foundation in **business, finance, economics and management** and practical skills in **data analytics, machine learning and software development**. Experienced in applying Python, Java and Swift to analytical and business-oriented projects, including regression modeling, EDA and financial-management applications. **International experience across Canada, Spain and Russia**, with fluent English and Russian and intermediate Spanish.

EDUCATION

University of British Columbia (UBC) — Vancouver, BC

Combined Major in Business and Computer Science, UBC Sauder School of Business

Expected Graduation: 2028 | Cumulative Average: 76.5% | Outstanding International Student Award — $15,000

Business courses: Statistics, Quantitative Decision Making, Finance, Economics, Accounting, Management Information Systems, Marketing, Operations & Strategic Management.

Computer Science courses: Applied Machine Learning, Algorithms & Data Structures, Software Construction, Computer Systems, Artificial Intelligence, Databases, Software Engineering and Networking.

TECHNICAL & BUSINESS SKILLS

Business & Analytics: Business Analysis, Statistical & Quantitative Analysis, Finance, Tableau

Data & Machine Learning: Python, Pandas, NumPy, scikit-learn, EDA, Feature Engineering, Regression

Programming: Java, Swift, OOP, Data Structures & Algorithms

Development: Git/GitHub, JSON, JUnit, iOS/macOS Development

SELECTED PROJECTS

NYC Airbnb Data Analysis & Regression Modeling
Python | Pandas | NumPy | scikit-learn | Matplotlib | github.com/ivanch365/nyc-airbnb-price-analysis

- Analyzed **48,895 NYC Airbnb listings** using EDA and visualizations to identify relationships among listing characteristics, location, pricing, availability and monthly review activity.
- Built a reproducible **scikit-learn pipeline** with missing-value handling, feature scaling, one-hot encoding and geographic feature engineering.
- Compared Ridge, Random Forest, KNN and SVR using cross-validation; optimized Random Forest with RandomizedSearchCV and achieved **$R^2 = 0.469$** on the held-out test set.

Finflow — Personal Finance & Budgeting Application
Java | OOP | Swing | JSON | JUnit | github.com/ivanch365/Finflow

- Designed and developed a **personal finance and budgeting application** supporting accounts, transactions, categories, payees, spending analysis and reports.
- Implemented **JSON-based data persistence**, transaction filtering and spending visualization, with a modular model, persistence and UI architecture.
- Developed **JUnit tests** for core application functionality and data persistence.

Finflow_v2 — Cross-Platform Financial Application
Swift | macOS | iOS | github.com/ivanch365/Finflow_v2

- **Ported the Finflow personal finance application to macOS and iOS using Swift**, developing desktop and mobile interfaces for financial management and budgeting.

Medical Expert System
Python | Binary Decision Trees | OOP | github.com/ivanch365/medical-expert-system

- Developed an interactive Python expert system using a **binary decision tree** to guide diagnostic questions and identify possible medical conditions.
- Implemented a **self-learning knowledge base** with recursive tree traversal and persistent data storage using Python serialization.

INTERNATIONAL & LEADERSHIP EXPERIENCE

Delegate — Model United Nations (MUN) | Nice, France | 2023

- Represented Egypt at an international student conference, negotiating across diverse interests and building support for a resolution.

Finalist — CICAE-UCJC National Debate League | Madrid, Spain | 2023

- Reached **the final of a national debate competition**, using statistics and policy analysis to develop and present evidence-based arguments.

La Gran Recogida — Spanish Federation of Food Banks | Palma, Spain | 2022–2023

- Engaged with supermarket customers, explained the food-donation campaign and encouraged donations supporting people experiencing social and economic hardship.

Challenge Peguera Mallorca Triathlon | Peguera, Spain | 2022

- Supported event operations by assisting participants at the welcome desk and water station.

ADDITIONAL INFORMATION

Languages: Russian — Native | English — Fluent | Spanish — Intermediate

Interests: Swimming — long-term competitive swimmer with multiple competition podium finishes.
